Information about the Gastrointestinal Cancer Clinic

The purpose of this information guide is to direct patients and health care professionals to sources of information on cancer and related topics. This list is not meant to be comprehensive, but rather to provide starting points for information seeking.

The materials can be found at the Patient Education Resource Center of the University of Michigan Comprehensive Cancer Center in room B1-361. An online version of this document can be found at:
http://www.cancer.med.umich.edu/support/information_guides.shtml

- **Understanding Gallbladder and Bile Duct Cancer**

<http://pathology2.jhu.edu/gbbd/understnd.cfm>

This site, provided by Johns Hopkins Pathology, includes detailed explanations and illustrations of the anatomy, surgical procedures, nutrition and other aspects of biliary cancers.

This document is not intended to take the place of the care and attention of your personal physician or other professional medical services. Our aim is to promote active participation in your care and treatment by providing information and education. Questions about individual health concerns or specific treatment options should be discussed with your physician.
