

High-Calorie, High-Protein Milkshakes

Listed below are a variety of milkshakes that can be helpful to increase the calories and protein in your diet. To maximize their calories and protein, you can use half-and-half, whole milk, high-calorie ice cream or dry milk powder. Nutrient dense supplements such as Ensure Plus[®], Boost Plus[®], or a generic version of these products can be used as the liquid in the milkshakes.
